

# Job listings

**Your StepStone job listing contains your logo, full details of your job opening (unlimited characters), and runs for 30 days.**

The day after publication of your listing, it is emailed to more than 130.000 potential candidates who have registered with StepStone. Your logo is also automatically displayed in the logo gallery.

You can choose all aspects of the layout of your job listing. We have a range of standard templates for you to select from or, if you prefer, you can provide us with your own fully customised listing.

Using your free, personal access code, you can edit your job listings, delete them or even create and upload new ones.

Detailed statistics give you a clear picture of the effectiveness of your recruitment campaign at any given time.
